

Purpose of this Document

The purpose of this document is to provide each school site and/or district office with clear guidance for reopening in a manner that provides a safer and cleaner environment for students, school staff and any essential visitors. This COVID-19 School Site-Specific Protection Plan (SSPP) is based on the template Site-Specific Protection Plan provided by Humboldt County Office of Education and Humboldt County Public Health. They are also informed by the American Academy of Pediatrics "COVID-19 Planning Considerations: Guidance for School Re-entry." It incorporates past and current Humboldt County Public Health Orders and requirements, in addition to updated guidance from the Centers for Disease Control & Prevention, the California Department of Public Health and the California Department of Education. It has been modified to meet specific guidance and requirements for schools and school offices and is intended to ensure schools and school/district offices have well developed and thorough plans in place and remain in compliance.

Description of a COVID-19 School Site-Specific Protection Plan (SSPP)

The (SSPP) template below combines state-level guidance published in the California State Resilience Road map and local Humboldt County public health policies. The State of California requires all schools to:

1. Perform a detailed risk assessment (school site walkthrough) and implement a school site-specific protection plan (SSPP)
2. Train employees on how to limit the spread of COVID-19, including how to screen themselves for symptoms and stay home if they have them
3. Implement individual control measures and screenings
4. Implement disinfecting protocols
5. Implement physical distancing guidelines

Additionally, this SSPP should be incorporated into the Comprehensive School Safety Plan.

As the COVID-19 public health crisis continues to evolve and new Public Health Orders are issued both at the State and local levels, amendments to individual schools' SSPPs may be needed in order to incorporate new requirements. The HCOE website will post and disseminate [updated information and tools for you to use in developing any needed amendments.](#)

Guidance for Developing Your School's COVID-19 School Site-Specific Protection Plan (SSPP)

1. Perform a risk assessment and school site walkthrough of your campus and office spaces and use the protocols, guidance and best practices detailed in the [Public Health Guided Return to Site-Based Classroom Instruction](#) as a guide for conducting your assessment.
2. Use the template below to create your own SSPP by filling in the required details, based on your individual school site/school or district office, to mitigate the transmission of COVID-19, along with the accompanying guidance from Humboldt County Public Health.
3. To assist you in your process, Humboldt County Public Health will provide a nurse liaison to area schools for technical assistance should questions emerge as school plans are developed. You should post the plan on your web site and/or at your school or office at a visible location, near the entrance where students, staff and visitors can easily review it without touching the document.
4. Signage also needs to be posted at each public entrance of each site to inform all students, staff and visitors that they should:
 - Avoid entering or using the facility if you have COVID-19 symptoms;
 - Maintain a minimum six-foot distance from one another;
 - Sneeze and cough into a cloth or tissue or, if not available, into one's elbow;
 - Wear face coverings, as appropriate; and

- Do not shake hands or engage in any unnecessary physical contact.

Templates for signs can be downloaded for use from the CDC at <https://www.cdc.gov/coronavirus/2019-ncov/communication/print-resources.html?Sort=Date%3A%3Adesc&Audience=Schools>

Tools for Developing Your School Site-Specific Protection Plan

1. COVID-19 School Site-Specific Protection Plan (SSPP) Template

The Humboldt County Office of Education is providing this template that can be used by any school or district in Humboldt to create their own School Site-Specific Protection Plan (SSPP). It contains all of the standard content already written for you to re-open your school or school office and prompts you to “fill in the blank” where unique information is required in order to complete your SSPP. The template has been reviewed and is supported by Humboldt County’s Public Health Officer.

2. School Specific Best Practices

The HCOE is monitoring updated guidance from the Center for Disease Control, the California Department of Public Health, the California Department of Education, and Humboldt County Public Health to support and promote emerging best practices to share with the school community in Humboldt. These best practices are based on alignment with local, State and federal guidelines in coordination with the county’s Public Health Officer. There is a section in the Template document that instructs you to cut/paste best practices right into your SSPP.

School or District Site Name	
Fuente Nueva Charter School	
Facility Address	
1730 Janes Road, Arcata CA 95521	
This COVID-19 School Site-Specific Protection Plan (SSPP) was most recently updated on:	
8/14/20	
The person(s) responsible for implementation of this Plan is:	
Name: Beth A. Wylie	Title: Charter Director
I, certify that all staff and parents have been provided a copy of this SSPP and that staff have received training as required and described in this SSPP.	
Signature: <i>Beth Ann Wylie</i>	Date: 8/14/20

Specific Control Measures and Screenings

1. All activities are consistent with and will adjust to changing applicable state and local Public Health orders.
2. Health and safety practices and protocols are in place, including hand washing, appropriate face coverings, and access to essential protective equipment. **Describe below:**
- Two different outdoor handwashing stations will be used by staff and students when arriving and exiting campus
 - Students will wash hands before eating snacks or meals using a combination of outdoor and indoor handwashing stations
 - Face coverings will be used by all staff while on campus. When a teacher or staff is in their room or office alone and is seated at their desk, face coverings will be optional.
 - Face coverings will be required for all students.
 - Face coverings will be provided for students and staff.
3. Training is provided to all staff and students reinforcing the importance of health and safety practices and protocols. **Describe below:**
- Staff will receive training on health and safety practices and protocols prior to beginning work with students.
 - Students will receive explicit direct instruction that reinforces the importance of health and safety practices and protocols on a regular and consistent basis. Instruction will include but not limited to:
 - Proper handwashing
 - Physical distancing of 6 feet
 - Keeping hands out of nose, mouth and eyes
 - Not touching materials that are not designated as theirs or available for them

4. A single point of contact will be established and identified at each school site to direct questions or concerns around practices, protocols, or potential exposure. This person will also serve as a liaison to Public Health and participate in the school's COVID-19 Task Force. **The name of this person is:**

Beth Ann Wylie

5. Plans are implemented for intensified cleaning and disinfecting, including training for staff and access to cleaning supplies and essential protective equipment, and regular disinfecting of frequently touched surfaces. Schools are directed to use EPA-approved disinfectants for COVID-19.
6. Health screening for each student is conducted daily prior to leaving home and includes symptoms and, history of exposure and temperature screening. In the classroom, teachers are vigilant for signs of illness in students and follow school protocols when a child becomes ill. **Describe process below:**
Parents will be instructed on how to check for symptoms and history of exposure and temperature screening and be asked to conduct such a screening daily prior to leaving home. Parents will report through a google document that this screening has occurred. When parents are unable to use google document, we will adapt through the use of email or phone.

Teachers will regularly and consistently scan students for signs of illness. If a child becomes ill the main office will be contacted to request that the student is removed. The child will be taken to the copy room which will be unusable during this time. The parents will be called and the child will be sent home. The room and any area that the child occupied prior to their departure will be thoroughly cleaned and sanitized.

7. Staff and students who are sick are expected to stay home.

8. Schools and districts will cooperate with Public Health to support testing strategies to mitigate transmission of COVID-19, including surveillance testing for staff on an agreed upon schedule throughout the school year. This may include testing of students with appropriate parental permissions obtained in advance.

9. Protocols, actions and template communications are in place for the following COVID-19 related scenarios (link: [Humboldt County Public Health Protocols & Communication Templates](#) for each scenario):

- a. A student or staff member either exhibits COVID-19 symptoms, answers yes to a health screening question or has a temp of 100.4 or above.
- b. A family member or someone in close contact with a student or staff member test positive for COVID-19.
- c. A student or staff member tests positive for COVID-19.
- d. A student or staff member tests negative for COVID-19 after any of the reasons in scenarios a, b or c.

Describe below:

Scenario	Action	Communication
a A student or staff member either exhibits COVID-19 symptoms, answers yes to a health screening question or has a temperature of 100.4° F or above.	<ul style="list-style-type: none"> • Student or staff: sent home • Contact health care provider for evaluation. If the student or staff does not have a health care provider, they should call the Public Health Department for advice. • Cohort OPEN 	No action is needed
b A family member or someone in close contact with a student or staff member test positive for COVID-19.	<ul style="list-style-type: none"> • Student or staff: Report information to administrator, sent home, quarantine • Contact health care provider/Public Health for testing • Cohort OPEN 	To: Student Families and Staff
c A student or staff member tests positive for COVID-19.	<ul style="list-style-type: none"> • Student or staff: Report information to administrator • Families of students and staff: quarantine and contact health care provider/Public Health for testing • Cohort CLOSED for 14 days from last exposure 	To: Student Families and Staff
d A student or staff member tests negative for COVID-19 after any of the reasons in scenarios 1, 2 or 3	<ul style="list-style-type: none"> • Student or Staff: May return to cohort 3 days after symptoms resolve, however must continue isolation if in contact with C19+ family member • Cohort OPEN 	To: Student Families and Staff

10. Distance staff desks at least 6 feet from student desks. Where practicable, physical distancing of six feet is maintained between students within a classroom or instructional area (distance of 3-6 feet is acceptable if other safety precautions are in place as specified in this document). Maximize distancing between desks to the extent possible by redesigning classroom space and removing non-essential furnishings. Facial coverings and other measures are intended to support the effectiveness of all levels of distancing. To clarify the intent of this item, the teacher must maintain a 6’ distance at all times except for brief (less than 10 minute) excursions to personally assist a student.

11. For elementary students, stable classroom cohorts (up to standard class size at each respective grade level) are maintained throughout each school day, and through each quarter or semester, with an assigned primary cohort teacher,

and systems are in place to prevent the mixing of classroom cohorts. Prioritize stability of classroom cohorts over strict physical distancing.

12. For middle and high schools, single classroom cohorts are used as practicable but larger cohorts made up of students from more than one classroom may be arranged as long as accurate attendance data for students and adults is maintained on a daily basis while avoiding school-wide mixing of students and staff. Space students at least six feet apart, if possible in existing facilities. Distancing of 3-6 feet is acceptable in classrooms if all other safety measures are in place as specified in this document. Strict social distancing is prioritized in older children and when cohorting cannot be implemented **Describe below:**

Not applicable, elementary only

13. Where practicable, desks are arranged facing forward to minimize face to face proximity between students.

14. School staff are permitted to visit and instruct more than one classroom cohort, strictly following physical distancing and face covering protocols, and must document/record visits to classrooms that are not identified as their primary classroom cohort. **Describe below:**

Teachers who visit more than one classroom on a regular basis will have a designated schedule to do so. When they enter a room, there will be a place for them to initial and time stamp their entrance and exit.

15. Routes for entry and exit to the campus will be designated for each classroom cohort, using as many entrances/exits as feasible. **Describe below:**

During distance learning with on campus support: Students will arrive on campus individually or in small groups. They will enter and exit through the main entrance.

During 2 day co-hort model: Students will arrive in staggered shifts on campus that use different entrance and exits.

Kindergarten west entrance	3 rd grade south entrance
1 st grade south entrance	4 th grade main entrance and
2 nd grade main entrance	5 th grade main entrance

16. Schedules for arrivals, recess and lunch will be strategically coordinated to prevent mixing of classroom cohorts.

Describe below:

Arrival:

8:20-8:30 Kindergarten west entrance, 5th grade main entrance

8:30-8:40, 1st grade south entrance and 2nd grade main entrance

8:40-8:50 4th grade main entrance and 3rd grade south entrance

Dismissal:

2:15 Kindergarten west exit

2:30 1st grade south exit

2:45 3rd grade south exit, 5th grade main exit

2:55 4th grade main exit

Lunch will be eaten in the classroom and served outdoors in a main hallway. The schedule will allow enough time for each class to finish the line before another class enters. Foot traffic will be directed in a manner that does not allow cohorts to mix.

Recess will be held in shifts with minimal overlap time. Due to the large outdoor space we will designate grade level play areas that are maintained when there are two classes out at the same time.

17. Congregate movement through hallways will be minimized as much as practicable. **Describe below:**

Students will follow a designated path when walking in the hallways. Due to the fact that all hallways are outdoors and covered, we will create a one-way flow pattern for walking in the hallways. A rotation schedule will be in place for adult supervision in the hallway.

18. Large gatherings (i.e., school assemblies) are currently prohibited.

19. The use of outdoor space for instructional purposes is maximized, shared, and coordinated to ensure students remain in their cohort. **Describe below:**

An existing outdoor classroom will be used by cohorts on a rotating basis. The area will be cleaned and sanitized between use. Additional outdoor spaces are under consideration to be installed on the large outdoor area available on campus.

20. Use of shared playground equipment will be limited in favor of physical activities that require less contact with surfaces, and shared equipment will be cleaned between uses.

21. Use of non-classroom space for instruction such as gymnasiums and multi-use rooms should be considered to support physical distancing with cleaning between uses.

22. Meals will be served in classrooms or outside instead of cafeterias or dining rooms with individually plated or bagged meals as much as practicable.

23. Routines and schedules will be developed to enable students and staff to regularly wash their hands at staggered intervals. **Describe below:**

A schedule has been created for each class to have a designated hand washing time upon arrival at school, before snack, before lunch and before going home. There are two additional outdoor handwashing stations installed, three sinks in each student bathroom, two classrooms with sinks, two sinks in the main office, the staff lounge and staff bathrooms.

24. Face coverings must be used in accordance with CDPH guidelines ([link to document](#)).

25. Training will be provided for staff and students on proper use of face coverings which will include instruction to minimize touching of face coverings.

26. Sharing of supplies, manipulatives, toys, sports equipment, and other learning and recreational materials will be limited and each student will have separate individually labeled boxes or cubbies.

28. Use of privacy boards or clear screens will be considered as much as practicable.

29. Non-essential visitors, including parent volunteers will be limited and essential workers will be required to adhere to all health and safety guidelines.

30. This School Site-Specific Protection Plan outlining the above measures is completed, posted and shared with all stakeholders and updated as state and local Public Health guidance dictates.

Cleaning and Disinfecting Protocols

<input checked="" type="checkbox"/>	Thorough cleaning in high traffic areas is performed regularly. Commonly used surfaces are frequently disinfected.	<input checked="" type="checkbox"/>	Sanitizing supplies are provided to promote employees' personal hygiene. This may include tissues, no-touch trash cans, hand soap, adequate time for hand-washing, alcohol-based hand sanitizers, disinfectants, and disposable towels.
<input checked="" type="checkbox"/>	All shared equipment and touchable surfaces are cleaned and sanitized between each use.	<input checked="" type="checkbox"/>	Cleaning products are used that meet the Environmental Protection Agency (EPA)'s-approved for use against COVID-19 list.

<input checked="" type="checkbox"/>	All entrances and exits are equipped with proper sanitation products, including hand sanitizer and/or sanitizing wipes.	<input checked="" type="checkbox"/>	School hours and/or other procedures have been modified to provide adequate time for regular, thorough cleaning, product stocking, or other measures.
<input checked="" type="checkbox"/>	Hand washing facilities will be made available and will stay operational and stocked at all times and additional soap, paper towels, and hand sanitizer are supplied when needed. Antimicrobial soaps are not required or recommended. Sanitizers containing methanol may not be used.	<input checked="" type="checkbox"/>	Hands-free devices have been installed, if possible, including motion sensor lights, contactless payment systems, automatic soap and paper towel dispensers, and timecard systems.
<input checked="" type="checkbox"/>	Hand sanitizer will be provided where indoor plumbing is not readily available.	<input checked="" type="checkbox"/>	Staff is provided adequate time to implement cleaning practices before and after shifts.

Schedule for Cleaning and Disinfecting high traffic areas and commonly used surfaces.

Fill in the fields below with the schedule for how often each area is disinfected.

Mark N/A for all that do not apply to your specific worksite and add any that are missing to "Other"

Physical Distancing Guidelines

<input checked="" type="checkbox"/>	Staff breaks and break rooms are managed to allow employees to eat on premises in designated areas where they can remain 6 feet apart.	<input checked="" type="checkbox"/>	Tape or other markings have been placed at least six feet apart on sidewalks or other walkways near public entrances with signs directing students to use the markings to maintain distance.
<input checked="" type="checkbox"/>	Staff desks are 6 feet from students. Where practicable, physical distancing of six feet is maintained to the greatest extent possible within a classroom or instructional area. Three to six feet is acceptable where requirements herein are in practice;	<input checked="" type="checkbox"/>	All desks or individual workstations within office settings are separated by at least six feet or employees otherwise maintain six feet if workspace is limited.
<input checked="" type="checkbox"/>	Meals will be served in classrooms or outside instead of cafeterias or dining rooms with individually plated or bagged meals as much as practicable;	<input checked="" type="checkbox"/>	The use of outdoor space for instructional purposes is maximized, shared, and coordinated to ensure students remain in their cohort;

Notification of COVID-19 Positive Case at School or Office Site

<input checked="" type="checkbox"/>	County of Humboldt Public Health is notified of all positive COVID-19 cases.	<input checked="" type="checkbox"/>	Employers and employees are aware that they can call Humboldt Public Health if a suspected exposure has occurred at 707-268-2182.
<input checked="" type="checkbox"/>	If a student or staff member is diagnosed with COVID-19, Humboldt County Public Health may ask for assistance in the assessment of potential worksite exposures, and will advise on any recommended testing, quarantine, or isolation instructions.	<input checked="" type="checkbox"/>	<p>Protocols, actions and template communications are in place for COVID-19 related scenarios:</p> <ul style="list-style-type: none"> • Student Symptom Checklist • Humboldt County Public Health Protocols on the onset of Symptoms

Training

Staff have been or will be trained on the following topics:

<input checked="" type="checkbox"/>	Information from the Centers for Disease Control and Prevention (CDC) on COVID-19, how to prevent it from spreading, and which underlying health conditions may make individuals more susceptible to contracting the virus.	<input checked="" type="checkbox"/>	Manufacturer's directions and Cal/OSHA requirements for safe use of personal hygiene and cleaning products.
<input checked="" type="checkbox"/>	Self-screening at home, including temperature and/or symptom checks using CDC guidelines.	<input type="checkbox"/>	The importance of physical distancing, both at work and off work time (see Physical Distancing section above).
<input checked="" type="checkbox"/>	The importance of not coming to work if employees have a frequent cough, fever, difficulty breathing, chills, muscle pain, headache, sore throat, recent loss of taste or smell, or if they or someone they live with have been diagnosed with COVID-19.	<input checked="" type="checkbox"/>	Proper use of face coverings, including: Covering the entire mouth and end of nose, not putting your hands under the mask, and keeping on at all times on campus.
<input checked="" type="checkbox"/>	The importance of seeking medical attention if an employees' symptoms become severe, including persistent pain or pressure in the chest, confusion, or bluish lips or face. Updates and further details are available on CDC's webpage.	<input checked="" type="checkbox"/>	Face coverings do not protect the wearer and are not personal protective equipment (PPE).

Compliance and Documentation

<input checked="" type="checkbox"/>	This school site / office is regularly inspected for compliance with this School Site-Specific Protection Plan (SSPP) and any deficiencies are documented and corrected.
<input checked="" type="checkbox"/>	All school sites and offices operations will continue to be accessible to students and staff with disabilities, complying with the Americans with Disabilities Act. Title III which covers private business entities.
<input checked="" type="checkbox"/>	This school site has created a Task Force to support SSPP activities. This group meets regularly.
